About PharmaxNext Conference

Who we are?

At the PharmaxNext Conference, we firmly believe that the finance industry can benefit immensely, by bringing like-minded people on a common platform. We see ourselves as mere facilitators of the process, committed to doing our bit for an industry that we have learned and gained so much from.

After successfully hosting our conference in Las Vegas, Singapore, Orlando, Dubai, Netherlands, and Spain we're now coming to Italy for our **Pharmax Next Conference** which will be held on the 11-12 March 2027.

The conference aims to bring together 200+ pharma leaders, including investors, startups, pharma firms, Pharma service companies, and government agencies. Along with these companies, we also expect relevant C Level individuals from Other industries that are interested in the space are present as well.

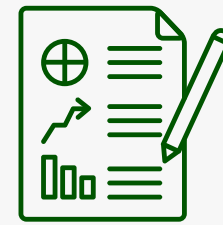

We have designed this conference in a way that it provides secure and meaningful channels for education, networking, and building buyer-vendor relationships in the Pharma industry. Our industry experts offer the most relevant information on the latest trends in the industry and how technology innovations are empowering the space.

ATTENDEE TESTIMONIALS

Our attendees have nothing but
kind words for us

Alexander Wiener - Fererhofer

"Life begins at the end of the comfort zone - the Conference is a perfect place to go beyond the usual business life cycle and become familiar with new financial ideas and thoughts. Compared with a multinational network a great way to be fit for future challenges."

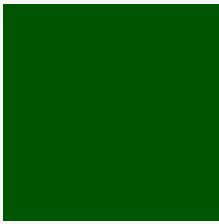

Derron Leonardo Tio

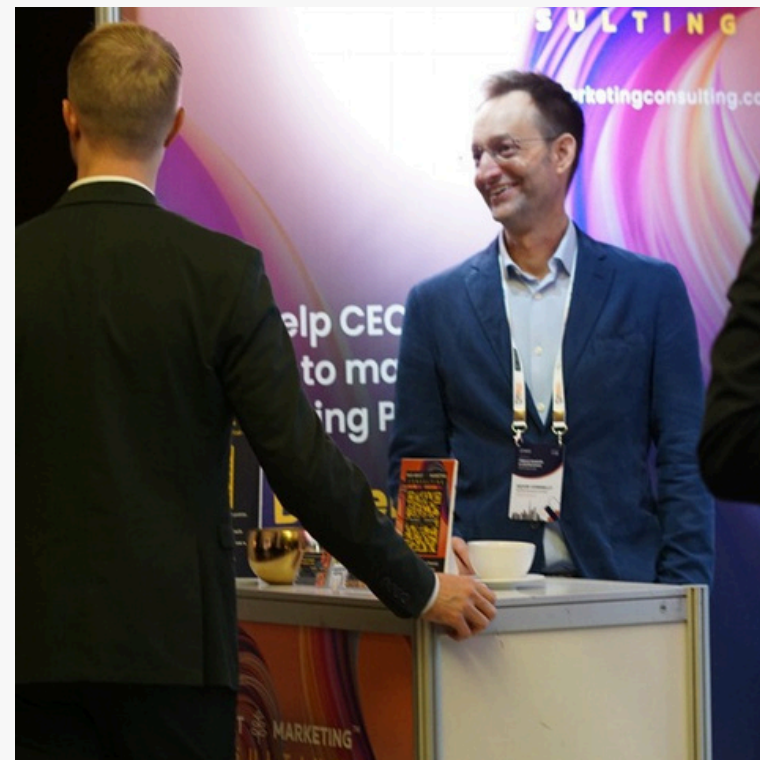

"Technology has enabled new stages of growth for many industries in the past decade, but we have not seen it in a more disruptive form than in its role in finance. This may not have happened without the contribution from the conferences"

Philippe Mathijs

"At a time when change frequency is exponential, conferences are an amazing platform for us to join the dots and stay abreast of what is happening in the industry."
